

SANDEEP KUMAR

Java Full Stack Developer

☎ +91-8319944822 ✉ kr.sandeep1997@yahoo.com 🔗 linkedin.com/in/sandeep-kumar

Summary

Results-driven Java Full Stack Developer with 3+ years of experience in building scalable web applications and RESTful services. Strong expertise in Spring Boot, React.js, and Microservices architecture, with hands-on experience in AWS and DevOps tools. Skilled in designing secure, high-performance systems and automating deployments using CI/CD pipelines.

Skills

Programming & Backend Technologies: Java, Spring Boot, Spring Security, Microservices, REST APIs, Kafka

Frontend Technologies: React.js, HTML5, CSS3, Bootstrap, JavaScript

Databases & Querying: MySQL

Cloud Services: AWS (EC2, S3, VPC, IAM, EBS, RDS)

DevOps: Docker, Kubernetes, Jenkins, Ansible, Terraform

Tools & Platforms: Git, GitHub, Maven, JIRA

OS & Scripting: Linux, Shell Scripting

Experience

DevOps & Cloud Intern

Sept 2025 – March 2026

PSA Infotech

- Worked with **AWS services** including EC2, S3, VPC, IAM, and RDS for deployment and infrastructure setup.
- Deployed applications using **Docker containers** on AWS EC2 for better scalability and consistency.
- Used **Kubernetes** for container orchestration and basic cluster management.
- Implemented **CI/CD pipelines** using Jenkins to automate build, test, and deployment processes.
- Provisioned cloud infrastructure using **Terraform (Infrastructure as Code)**.
- Performed **Linux administration and shell scripting** for automation and server management.

Java Full Stack Developer

July 2022 – May 2025

GvCloud Secure Pvt. Ltd., Noida

- Developed scalable web applications using **Java, Spring Boot, and React.js**, improving application performance and user experience.
- Designed and implemented **RESTful APIs** for seamless communication between frontend and backend systems.
- Built responsive and reusable UI components using **React.js, HTML5, CSS3, and Bootstrap**.
- Implemented secure authentication and authorization using **JWT and Spring Security**.
- Worked on **Microservices architecture**, improving modularity and scalability of applications.
- Optimized complex **MySQL queries**, reducing response time and improving database performance.
- Collaborated in **Agile/Scrum teams** and managed version control using Git and GitHub.

Project

E-Commerce Application | *Spring Boot, React.js, MySQL, Docker, AWS*

- Optimized MySQL queries and database design, reducing API response time and improving application performance.
- Integrated **Kafka** for asynchronous communication between microservices, improving system reliability.
- Implemented **role-based access control (RBAC)** for secure user authorization.
- Designed fault-tolerant services with proper exception handling and logging mechanisms.
- Used **Docker Compose** for managing multi-container microservices locally.
- Configured **Nginx** as a reverse proxy for better load handling and routing.
- Implemented caching strategies to reduce database load and improve performance.
- Wrote unit and integration test cases to ensure application stability and reliability.
- Monitored application performance and logs to identify and fix bottlenecks.

Smart Contact Manager | *Spring Boot, Hibernate, MySQL, Thymeleaf*

- Built a contact management system supporting **CRUD operations** and user authentication.
- Implemented secure login using **Spring Security**.
- Designed application using **MVC architecture** for maintainability.
- Added search and filtering features to enhance user experience.
- Handled database operations efficiently using Hibernate ORM.

Eva Aviation Academy | *React.js, JavaScript, CSS*

- Developed a modern, responsive UI using React.js and component-based architecture.
- Improved UI performance and ensured cross-device compatibility.
- Focused on reusable components and clean UI design principles.

Awards & Certifications

- **Java Full Stack Development Certificate – PSA (2026):** Hands-on experience with Spring Boot, Microservices, Kafka, Docker, Jenkins, and AWS-based deployments.
- **Java Certificate – Uncodemy:** Developed dynamic web applications using React, Java, SpringBoot, Hibernate, and MySQL.
- **ReactJS Certificate – Udemy:** Developed dynamic web applications using React, including components, hooks, and state management.
- **SQL for Business Analysis – Udemy:** Gained expertise in SQL queries, joins, and data analysis for business insights.

Education

Bachelor of Engineering

2015 – 2019

Rajiv Gandhi Proudtyogiki Vishwavidyalaya, M.P.

12th

2013 – 2015

BSEB, Patna
